

EECS 495 Software for Accessibility

Evaluation of Self

Name: William Kang

Team: BubbaDoodle

This form has two parts. The first part is required and the second part is optional:

- In the first portion, named **Personal Contribution**, please list ten positive, concrete contributions made personally by you to the success of the project.
- In the second portion, labeled **Hero and Dissent**, please list any team members who have made significant contributions to the project and / or indicate any dissent that you may have regarding any portion of the evaluation process (peer evaluation, supervisor evaluation, course staff evaluation).
- Note that the **Hero and Dissent** portion of this form *does not* have to be filled out.

Personal Contribution

1. Determined the inability to use our initial eye tracking software
2. Found and researched Project Iris and its capabilities
3. Adjusted canvas location within the application to prevent drawing underneath buttons
4. Created the home page for BubbaDoodle
5. Moved location of clear button to prevent accidental clicks/destroying drawing progress
6. Added new functionality to the clear button to make the user confirm their decision
7. Incorporated image opening from the home page
8. Prevented the clear functionality from deleting the opened image itself
9. Organized and styled the buttons on the home page for the beta presentation
10. Researched using images as buttons or even placing images into a tkinter window for easier template selection
